

# PECE 301 Instructional Principles and Methods in Early Childhood Education

## **Instructor Information:**

Instructor: Dr. Elif Buldu

e-mail: <a href="mailto:elif.buldu@tedu.edu.tr">elif.buldu@tedu.edu.tr</a>
Office Hours: By appointment

Course Assistant: Elif Naz Altaş e-mail: <a href="mailto:elif.altas@tedu.edu.tr">elif.altas@tedu.edu.tr</a>

#### **Course Information:**

Class Hours: Tuesday: 13.00-15.00

Friday: 14.00-16.00

Class: GB10

ECTS Credits: (2+2+0) 3, 7 ECTS Credits

## **Catalog Description**

Basic concepts in teaching. Principles of teaching and learning based on children's development. The importance and contributions of planning in teaching (annual plan, monthly plan, daily plan and samples from activities). Teaching and learning strategies. Teachers' duties and responsibilities in terms of age and development appropriate instructions.

#### **Course Objectives**

The aim of this course is to provide knowledge on teaching methods, approaches, and strategies in early childhood education. The course also aims to teach basic developmental stages of children and how to apply this information appropriately to instruction as well as how to prepare yearly, monthly and daily teaching plans in practical settings.

## **Course Learning Outcomes:**

Upon successful completion of the course, students will be able to:

- 1. interpret teaching methods and practices in the field of early childhood education,
- 2. express learning and teaching approaches and their differences,
- 3. use various teaching methods and strategies supporting children's learning,
- 4. design teaching activities appropriate for children,
- 5. design learning environments which support individual and collaborative learning,
- 6. use assessment techniques which measure certain learning outcomes and individual differences.

#### **Student Workload**

Workload	Hrs
Lectures	58
Course Readings	14
Field Trips/Visits	5
Hands-on Work	14
Exams/Quizzes	20
Oral Presentation	10
Team Meetings	6
Total Workload	125

#### **COURSE POLICIES:**

#### 1. Professionalism

Plagiarism: All assignments you hand in should be the result of your effort only. Academic dishonesty, including any form of cheating and plagiarism will not be tolerated and will result in failure of the course and/or formal disciplinary proceedings usually resulting in suspension or dismissal. Cheating includes but is not limited to such acts as; offering or receiving unpermitted assistance in the exams, using any type of unauthorized written material during the exams, handing in any part or all of someone else's work as your own, copying from the Internet. Plagiarism is a specific form of cheating. It means using someone else's work without giving credit. Plagiarism is a literary theft. Therefore, you have to acknowledge the sources you use in your assignments.

Written work: Your assignments are expected to be neat in appearance. Spelling, grammar and syntax are important. All written material must be typed (12 pt) with spacing at one and a half lines. It is therefore of the utmost importance that you proofread your papers before handing them in. ALL OF YOUR ASSIGNMENTS SHOULD BE SUBMITTED BEFORE OR AT THE DUE DATE, THROUGH THE MOODLE SYSTEM AND PRINTED AS WELL. All assignments must be

submitted with a cover page which includes; the name of your department, the name of the course with section code, affiliation and name of the instructor, name of the homework, your name, your id number and the date of submission.

Late work: You are supposed to turn in each assignment on time. I will only accept late assignments in unusual circumstances (e.g. documented illness). In all other cases, I will reduce %10 of the total point per day for late work, and the assignment will not be accepted after three days late.

**Tentative course outline & class schedule:** This syllabus and accompanying class schedule is subject to change without advance notice. The intent of the course schedule is to give students a general idea what/when material is covered in class. Due to the nature of the course and group projects, some issues can affect the course schedule resulting in some changes. This is yet another reason why regular attendance at the class is critical.

**Announcements:** All announcements will be sent to your e-mail address. It is your responsibility to keep your e-mail address operative all times. Check your e-mails regularly in order to be informed.

#### **Tentative Schedule**

Tentative Course Schedule			
Week	Dates	Main content	Assignments/ Assessments/ Readings/Contents
1 <sup>st</sup>	3 <sup>rd</sup> Oct.	Introduction to Instructional Principles and Methods in Early Childhood Education	- Syllabus discussion

Week	Jan.	Duna antatia a sa Cala	
14 <sup>th</sup>	5 <sup>th</sup> Jan.	Presentations of observations	
Week			

## **ASSIGNMENTS**

**Group Presentation (30%):** You are supposed to create 11 groups (each max. 3 students) for specified days throughout the semester. Each group will prepare a lesson plan which includes the teaching techniques we learned a week ago.

- 1. The techniques should correspond to the techniques learned a week ago.
- 2. Each group must use at least two general teaching techniques and at least one other techniques in the learning process.
- 3. Activity plans must be given and submitted at the beginning of the course.

**Midterm (30%)**: One in-class midterm exam will be given in class in response to questions that come directly from class experiences, discussions of guest speakers and readings assigned to each week. Midterm exam will likely to include multiple choice, short answer, matching, and essay questions.

**Classroom Observation at School and Presentation (40%):** You are supposed to observe a real learning process in the schools that will be arranged for you. The schools will be announced later throughout the semester.

During the observation, you need to look at what techniques a teacher uses during the activity and its compatibility with that learning process. *An observation form* explaining what you will pay attention to during the observation and how you will observe will be created together in class (Check the tentative schedule).

After the observations are completed, you must write a final paper and present it. A final paper will be created based on your observations and the information you learned in class. **The rubric for the final paper** will be uploaded to the system within the term.
