

**Faculty:** Architecture and Design

**Course Code & Number:** ARCH 301

**Type of Course:** Compulsory

**Course Credit Hours:** (2+8+0) 6 / 12 ECTS

**Language of Instruction:** English

**Department:** Architecture

**Course Title:** Architectural Design III

**Semester:** Fall

**Pre-requisite:** ARCH202 (Architectural Design II)

**Mode of Delivery:** Face-to-face

## INSTRUCTORS

Bilge İmamoğlu

Can Aker

Derin İnan

Ekin Çoban Turhan

İpek Akın

Utku Coşkun (RA)

Zühre Sü Gül

## CATALOG DESCRIPTION

Analysis, design and intervention in a historic context. Values, potentials, and problems of historic sites and buildings. Principles of cultural heritage conservation. Relationship between the tectonic, structural, and programmatic features. Architectural program interpretation. Universal Design principles. Holistic approach to environmental, cultural, social, and historical inputs.

## COURSE OBJECTIVE

The course covers design problems by accounting for the cultural, historical and environmental conditions. It underlines the relationship between architecture and local context and questions the complex relations that a building sets with its environment by assessing the values, potentials and problems of the historic context at hand. In doing so, students are expected to engage in various analytical processes that inform and inspire the study of spatial, structural, environmental, technological and material qualities, which are to be reflected in form, program, construction system and tectonics of architecture.

## LEARNING OUTCOMES

Upon successful completion of this course, students will be able to:

1. Interpret principles of cultural heritage conservation for assessing the values, potentials and problems of historic sites and buildings,
2. Define methodological approaches for analyses and design to intervene a local context in line with its cultural-historical values,
3. Interpret an architectural program as the formulation of relationships between activities and patterns of use,
4. Develop design strategies considering the requirements of the program, structural organization and material qualities,
5. Apply universal design principles for producing accessible, safe, and inclusive environments with integrated solutions,
6. Solve multi-dimensional design problems by focusing on the effects of environmental forces, and cultural, social and historical conditions.

## STUDENT WORKLOAD

Hands-on Work 112 hrs, others 360 hrs.

## GRADING SYSTEM

For each course taken, the student is given one of the following grades by the course teacher. The letter grades, coefficients and percentage equivalents are given below.

AA 4.0 / 100-90

BA 3.5 / 89-85

BB 3.0 / 84-80

|    |                     |
|----|---------------------|
| CB | 2.5 / 79-75         |
| CC | 2.0 / 74-70 average |
| DC | 1.5 / 69-60         |
| DD | 1.0 / 59-50         |
| F  | 0.0 / 49-0          |
| FX | 0                   |

### EVALUATION *tentative*

Students will be evaluated on the basis of the quality and process of the work, the completion of assignments, and contribution to the studio environment. It is reminded that proper, elaborate and regularly updated documentation of the studio work on the weblog is an important part of the evaluation.

Assignments: %15

Pre-Jury I: %20

Pre-Jury III: %20

Final Jury: %35

Contribution: %10

### WEEKLY SCHEDULE *tentative*

|                   |   |
|-------------------|---|
| <b>WEEK 01</b>    | Introduction & Site Visit (Ankara Castle) & Lectures                                |
| <b>WEEK 02</b>    | Urban Analysis & Structural Studies & Lectures                                      |
| <b>WEEK 03</b>    | Urban Analysis & Structural Studies & Lectures                                      |
| <b>WEEK 04</b>    | <b>Field Trip &amp; Site survey</b>   |
| <b>WEEK 05</b>    | WHAT IF: Site Conditions & Architectural Tectonics & Case Studies                   |
| <b>WEEK 06</b>    | Analysis: Urban Conditions  |
| <b>WEEK 07</b>    | <b>Pre-Jury I: Conceptual Design</b>  |
| <b>WEEK 08</b>    | Conceptual Design: General layout of the site + Massing + Programmatic Distribution |
| <b>WEEK 09</b>    | Synthesis: Topography + Programmatic Distribution + Structural system               |
| <b>WEEK 10</b>    | Design Development: Plan & Section Organization + Structural system                 |
| <b>WEEK 11</b>    | <b>Pre-Jury II: Design Development</b>  |
| <b>WEEK 12</b>    | Design Development: Plan & Section Organization                                     |
| <b>WEEK 13</b>    | Detailed Design: Façade + Material + Landscape                                      |
| <b>WEEK 14</b>    | Detailed Design & Final Representation (all drawings + models)                      |
| <b>FINAL JURY</b> | <i>The date will be announced later.</i>  |
